***Detailed Action***

***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- i. Claims 1-34 and 97-107, drawn to the sending and receiving of sound data, classified in class 709, subclass 217.
- ii. Claims 35-96, drawn to online music stores and marketing classified in class 705, subclass 26.

2. The inventions are distinct from each other due to the following reasons:

In claims 1-34 and 97-107, the focus remains in the transferring of sound data and comparing the sound data to other stored sound data. Such claims fall into the category of data transfers or networks, which is class 709. Meanwhile, claims 35-96 focus on the more commercial aspects to offering sound data transfers. While some description is provided regarding data transfer, the claims concentrate more towards the characteristics of online stores. For instance, certain claims describe providing advertisements and while others describe means for purchasing music.

3. Because the inventions are distinct for the reasons provided above and have acquired a separate status in the arts as shown by their different classification, restriction for examination purposes as described is required.
